10. I am an existing Unifi broadband customer. Can I upgrade my current plan under this campaign?

- Yes, you can upgrade your current plan and enjoy the discounts offered under this campaign.
- However, if you switch from a broadband plan that comes with a waiver while you are still within the contract period, the remaining contract months will be carried forward to the new plan's contract.
- **Example scenario:**

Current plan with waiver:

Unifi Home 100Mbps PrimePromo (27 months) with 6 months of contract remaining

New plan:

300Mbps Unifi Home Plus with New TV Pack + Smart Device plan (36-month contract)

Total contract after upgrade:

6 remaining months + 36 months new contract = **42 months total contract**

11. I already have a smart device with my current Unifi Home plan. Can I subscribe again to get another smart device?

- At the moment, you will need to complete your current contract that includes a smart device before you can subscribe to this campaign and receive another device under your name.

12. Do I get to keep the smart device after the contract ends?

- Yes, the smart device is yours to keep once you have completed the 36-month contract and fully paid for the device.

13. Will there be any additional fees for the smart device delivery, and can I change the delivery address?

- Don't worry, there are no extra charges for delivering the device to your doorstep, anywhere nationwide.
- However, the delivery address cannot be changed. Your device will be sent to the same address provided for your Unifi service installation, unless the postcode falls under an area not currently covered by our delivery partner.

14. I was told my area is not eligible for smart device delivery. What should I do?

- Some areas are currently not serviceable for smart device delivery due to limitations from our logistics partner.
- If your address falls within one of these areas, you can still proceed with your order by providing an alternative delivery address in a serviceable area, for example, a family member's or friend's location.
- A list of the affected postcodes is provided below:

State	Postcode
Johor	81610,

- The device fee will be charged twice in your first (1st) bill, as it is not prorated after the smart device is successfully delivered to you. Please refer to Question 16 for details.
- All charges include free nationwide delivery.

16. Why am I being double charged in my first (1st) bill for the smart device subscription?

- You may notice what looks like a double charge in your first (1st) bill because smart device charges are not prorated.
- Sample Scenario
Subscribing to the 100Mbps Unifi Home Plus with New TV Pack plan (RM119) + Smart Device 65" (RM70):
 - Month 1 bill: RM119 + RM70 (Month 1) + RM70 (Month 2) = RM259
 - Month 2 until Month 35 bill: RM119 + RM70 = RM189
 - Total Charges: You will still only pay for 36 months in total.
- The charges follow a calendar month basis. You can refer to the "Start Date" and "End Date" on your bill for the exact charge period. Rest assured, you will only be billed for the 36-month subscription duration.

17. When will I receive my smart device?

- Your smart device will be delivered to your registered delivery address within 30 calendar days of order creation, subject to stock availability.
- Please check the condition of the device upon delivery before signing the delivery order. If the device is faulty or damaged, you may request a replacement within seven (7) days — terms and conditions apply.

18. How can I check the delivery status of my smart device?

- There are two (2) ways to track your delivery:

 - You will receive an SMS with your tracking number on the day of delivery.
 - Visit <https://gdexpress.com/tracking/>
 - Enter your tracking number.

19. How much is the penalty amount if I terminate the plan within contract period?

- If you end your plan before the contract is completed, you will be charged early termination fees for:
 - **A. Unifi Home Broadband**
You will be charged the full monthly subscription fee (calculated after discount)

for the remaining months of your contract.

Early Termination Penalty (ETP) = Remaining contract months × Monthly subscription fee (after discount)

Example:

100Mbps Home Plus with TV Pack

5 months remaining:

5 × RM119 = **RM595**

○ **B. Smart Device**

You will also be charged for the remaining device cost, calculated based on the device's Recommended Retail Price (RRP).

Early Termination Penalty (ETP) = (Device RRP ÷ 36 months) × Remaining contract months

Example:

Samsung TV 65-inch

RRP = RM3,499

5 months remaining:

$(RM3,499 \div 36) \times 5 =$ **RM485.97**

Total penalty fee:

RM595 (Unifi Home Broadband) + **RM485.97** (Device) = **RM1,080.97**

Note: The ETP amount may vary depending on the prorated charge for your Unifi Home Broadband.
