

Wi-Fi 6 Router

Items for installation:

Wi-Fi 6 Router

Modem (BTU)

unifi TV
Media Box

Optional:

IMPORTANT NOTE:

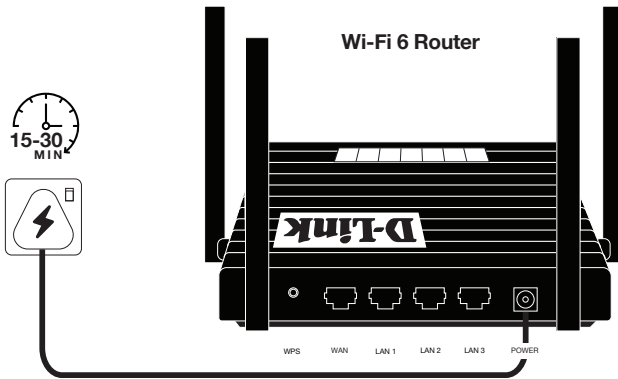

Once you have received your router package containing your new Wi-Fi 6 Router, you are advised to install the router within 7 days. During installation, please follow the labelled instructions for Wi-Fi 6 Router. Installation after 7 days from receiving the package will require assistance for setup. Please contact us at 1800-88-5059 (working hours 8.30am - 5.30pm, Monday-Friday) to complete it.

PART 1: Connect the new Wi-Fi 6 Router to the modem

- Before we start, unbox your new Wi-Fi 6 Router.
- Mark your old cable connection before disconnecting it from the old router port to avoid any incorrect connections on the new router port.

1 Connect the cable from the WAN port of your new Wi-Fi 6 Router to the LAN 1 port of your existing modem.

2 Connect the Wi-Fi 6 Router power adapter to your power supply socket and switch it on.

- Please wait between 15 to 30 minutes for our system to run the auto-configuration and establish the connection.

* Once you are connected, you will receive your new broadband password via SMS for your future reference. This password has been auto-configured in your new Wi-Fi 6 Router.

* You will also get a new default Wi-Fi network name (SSID) and password which can be found at the bottom of the new Wi-Fi 6 router.

OPTIONAL: Connect unifi TV Media Box to the Wi-Fi 6 Router

- If you have a unifi TV Media Box (white box or unifi Plus Hybrid Box), connect the Media Box cable from LAN port to the new Wi-Fi 6 Router LAN 3 port. For unifi Plus Box (uPB), you can just connect to the Wi-Fi network.
